Dynamic Health Mobile App: Installation & Authentication Workflow

Dynamic Health is an evidence-based tool for nurses and allied health professionals.
It provides quick access to clinical skills, drug guides, and care interventions.
Users can search by specialty, age, or content type, and follow topics of interest.
The app supports both online and offline access and offers Continuing Education (CE) credits.

1 Download the Dynamic Health Mobile App on your iOS or Android device using the
links below:

- **iOS (Apple App Store)**:
https://apps.apple.com/us/app/dynamichealthmobile/id1513958198

- **Android (Google Play Store)**:
https://play.google.com/store/apps/details?id=com.ebsco.dha&hl=en
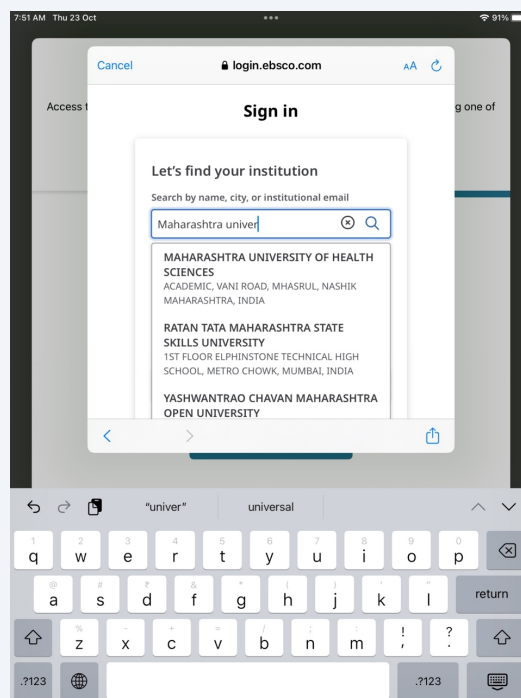

2 Click "Sign In"

**3** Click "EBSCO Login and Institutional Locator"

4 **Search for your institution** under the section titled "Let's find your institution.

> Note: Be sure to enter the **name of your institution**, not the name of your university.

5 You'll be redirected to the **OpenAthens remote authentication login page.**

> **Use your institutional login credentials to verify and access your account.**

6 Choose an installation option from the three options available.
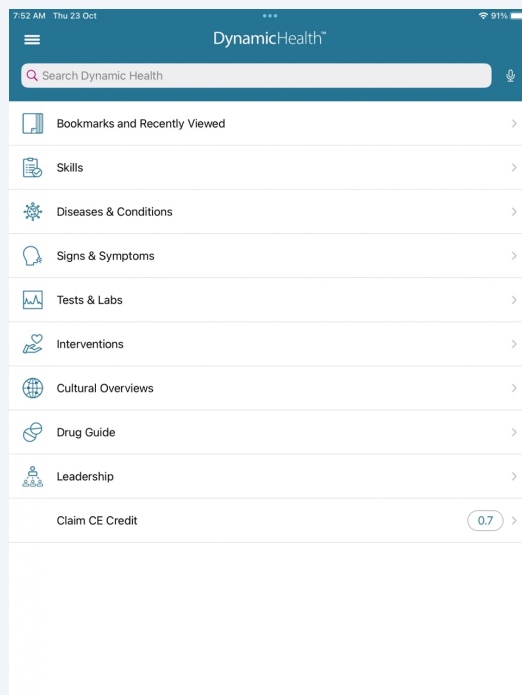

*Preferred is "Full" install.

User device needs sufficient space to have the option selected to install the app.
